TO OUR PATRONS AND FRIENDS: We desire to thank you for your earnestly solicit your esteemed favors in the future. Our catalogue is small and unpretentious, and does not appear so attractive as those with alluring illustrations or highly colored lithographs and elaborate descriptions, so often overdrawn and imaginary. We ask as a special favor that you give this book a careful reading, comparing our low prices with others.

"HIGHEST QUALITY" Our Aim, and first consideration.
"PRICES THE LOWEST" for Good Seeds and Plants as they can be sold.
OUR DETERMINATION is to grow and distribute nothing but the VERY BEST and the VERY BEST VARIETIES, and only those we can assure our patrons that are of TESTED MERIT. We can assure our friends and patrons of the same liberal treatment, prompt and faithful execution of all your valued orders as in the past.

SEEDS THAT GROW. Always reliable. Our stock first class, new and fresh every year and grown by the most reputable growers in the world, and unsurpassed for purity and vitality. **Please notice** our liberal discounts on all seeds in **Packets Only—\$1.50 for \$1.00 cash.** Nearly all our packets are priced at 3 cents each, they are as large and well filled as any other firm's 5 cent packets. From **good seeds** only can good crops be grown. Nothing should induce you to risk planting any others.

WE PAY THE POSTAGE On everything in our Catalogue except where noted. Pecks or bushels must go by express or freight. Why buy questionable, kept-over seeds peddled over the country and sold on commission, when you can have **Pure and Reliable Seeds, delivered at your door, by mail, postpaid.**

SPECIAL EXPRESS RATE A 20 percent reduction on plants, seeds, bulbs and small fruits is now granted by the express companies on the regular merchandise rate. Express charges are now very moderate, minimum charges being 35 cents on small packages.

READ REMARKS ABOUT ORDERING CAREFULLY.
 It will greatly assist us in getting your order shipped promptly,

Our Prices Are Strictly Cash—The proper remittance must in all cases accompany the order, and should be inclosed with it to insure prompt dispatch.
Lost Orders—Letters are sometimes lost, stolen, or destroyed in transit, so that they fail to reach us, and are never heard from. Please remember that however safe the U. S. mail service is, that some vexatious losses and delays are liable to occur. In some instances mails are burned up in railroad wrecks, and delayed for days in snow-bound trains or in bad washouts. Therefore business prudence dictates that remittances must be made in the following manner, so that in case of loss duplicates can be had.

Postoffice Money Orders can now be had at almost all postoffices, and are absolutely safe. If the letter enclosing it is lost, send us the number, date, amount, the office at which it was payable, a list of what you ordered, and we will fill the order at once and apply for a duplicate of the lost money order, which the government will furnish in such cases.

New York or Chicago bank drafts drawn by your local banks and made payable to our order are good, and can be had at all banks. If lost the bank will issue a duplicate.

Express money orders are one of the cheapest and best ways of sending money. Perfectly safe, because if lost, a duplicate can be had by applying to the express company.

Do not send personal checks as it costs 25 cents to collect them by the banks, and we can not accept them unless the cost of collection is added, then some delay is caused in making collection also.

Registered Letters—When you can not get money orders, enclose the money—either notes or coin—and have it registered by the postmaster and the money counted in his or her presence.

Cost of Remitting—On all orders of 50 cents and over the cost of remitting by any of these methods may be selected in seeds or plants in accord with the

character of your order. Do not expect us to send you a single plant for this where your order calls for seeds entirely; it is asking too much of us, for the cost of packing and postage amounts to more than the plants.

When coin is sent in letters it should be pasted up in strong paper or sewed in cloth so as to prevent it breaking through the envelope, which is universally the case when enclosed loose.

Postage stamps in small amounts are taken as cash, but they must be sent so they will not stick together. A good plan is to wrap them in wax-paper. Do not handle them with damp or moist hands.

Free by Mail—At the prices named in this book we send everything offered by mail, postpaid, except where otherwise noted. When we ship by express it is at the purchaser's request and expense.

Remember to always sign your name the same. No matter how often you write us do not forget to give your **Postoffice, County and State.** We always have orders on file with deficient addresses—some forget to sign their names, others their postoffice or state. Some we can trace, but usually we have to wait for complaints.

It is important that you keep an exact duplicate of your order. Check it off carefully before you send it, so there can be no question of mistake made.

We guarantee all orders to arrive safely at any point in the United States, whether sent by mail or express, and to arrive in a good growing condition, but here our responsibility ceases. If anything is injured or spoiled in any way before delivery, write us by return mail and it will cheerfully be replaced without cost. We do not guarantee that our Roses and other plants that we send out will not die from neglect or careless treatment; killed by drought, insect depredations, accidents or frosts after they are planted, and we should not be asked to be responsible when plants die from any of these causes.

**The Beautiful New Ever-blooming Tea Rose
 SOUVENIR DE PIERRE NOTTING.**

The illustration we give on the first cover page is only about one third the natural size of the flower, and possesses the merit of being about as true and faithful a portrait as it is possible to produce with printers' ink. All qualified judges and expert Rosarians are full of its praise, and pronounce it one of the most beautiful long stemmed Roses recently disseminated for forcing and cutting. It has a sturdy, healthy habit of growth, with beautiful, closely set foliage, not susceptible to disease. It is a cross between Marechal Niel and Maman Cochet, resembling the latter in growth and vigor, and exceeding it in form and beauty, and in the quantity of bloom is not surpassed by any other Rose. Has received six gold medals and first class prizes. At all expositions where shown it created the greatest surprise and universal approval. The flowers are very large, perfectly double and of elegant form; the bud is long and beautiful. The colors are bright, distinct and clear and have no unpleasant tones. A beautiful rich golden orange yellow, the edges of the petals bordered with carmine-rose. **Price, 20c. each, 3 for 50c.; large two-year-old plants, 50c. each.**

FOR NEW CREATIONS in Roses and other Plants of high order and great merit our prices are made **Wonderfully Low** in order to encourage all to give them a trial. They will bring pleasure and profit to all who plant them.

Velvet Lawn Grass Mixture—It is a compound of Grasses that ripen successively, thereby always presenting a cheerful appearance. Lawns sown with only one or two grasses turn brown under our hot sun and remain in that condition until the cool months of autumn revive them. The mixture that we offer is one of the best on the market, and can be relied upon to produce the very best results. Sow four bushels to the acre. Weight, per bushel, fourteen pounds. **Qt. 25 cts., postpaid; by express or freight, purchaser paying charges; peck, \$1.00; bushel, \$3.00, net.**

English Mushroom Spawn—It comes in bricks, of about one and a quarter pounds each; these, before planting, are usually divided into a dozen parts and the pieces inserted in the bed eight to ten inches apart each way.

Prices on Spawn are net and not subject to discount. **Per single brick, 25 cts., postpaid; by express or freight, 10 lbs., \$1.50; 25 lbs., \$3.50; 50 lbs., \$5.50, Net.**

REMEMBER SEED DISCOUNTS or PREMIUMS DO NOT APPLY to PLANTS in any case. We cannot fill Plant Orders for less than 25 cents by mail, unless 10 cents is added to pay postage. BUT FOR SEEDS WE ACCEPT ANY AMOUNT.

Our Terms of Sale are of Great Advantage to Our Customers.

We have reduced our prices for plants to a net cash basis of no premiums or discounts, which are so complicated and often misleading. Our treatment to our patrons is in all cases most liberal. Our mottoes: "HIGHEST QUALITY" and "LOWEST PRICE," are surpassed by none. We guarantee our plants to reach you in safety and in good condition. We also warrant our stock first class. Remember that we pay the postage except where otherwise noted.

GENERAL REMARKS—Our Roses are all grown on their own roots and are plants of strong, hardy constitution, and are not forced by any natural or artificial means. This is the most essential point of successful Rose culture; they succeed to grow and bloom where others fail.

Souv. De President Carnot—Nothing we have seen is so fascinatingly attractive, or that will compare with the beautiful flowers, which are very large, perfectly double, exquisitely shaped, with heavy, thick, shell-like petals. Superb buds, long and pointed, and borne on long, stiff stems, and are produced in remarkable profusion. The color is new and refined, a very delicate shade of rosy blush, shaded a trifle deeper at the center of flower. The fragrance is deliciously refreshing and charming. The plant grows strong and sturdy, and has no weak spot in its constitution. The foliage is unusually large and handsome. In every way it is one of the handsomest of Roses, and perfect in its graceful form and finish. **Price, 10 cents each; large two year old plants, 40 cents each.**

Baroness Berge—A bewitching new Tea Rose. Full to the center, with plump, chubby buds that are as dainty and pretty as can be for wearing. Perfume, a delicate and delightful Tea scent. **Price, 10 cents each; large two year old plants, 35 cents each.**

Mrs. Robert Peary, New Hardy Everblooming Climbing Rose.—Is a sport from one of the most magnificent and celebrated Roses grown, *i. e.*, Kaiserine Augusta Victoria. This fact alone is sufficient to guarantee its advent no matter what the climate may be, and it surely meets a demand that has never been supplied. The flowers are extra large, full, deep, and double. They are of excellent substance, and are produced on long, stiff stems, like a forcing Rose; in fact, both in buds and flowers, this grand new variety is superior in grace and finish to any white cut-flower Rose. The buds are long and pointed, a remarkable feature not found in any other Climbing Rose; the fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year, a characteristic found in no other white Climbing Rose. Then it is absolutely hardy, and its flowers are truly beautiful. If you want a quick growing, hardy Climbing Rose—one that will give you flowers this year—this is the only white variety that will do it. It has no weak spot. It grows to perfection outdoors, throwing up numerous shoots, 10 to 16 feet high in a single season. We regard it as the most important introduction of modern times. Be sure to include this variety with your order. Its beauty, and healthy, thrifty growth, will astonish you. Be sure to try it. **Price, 15 cents each; 2 for 25 cents; large, two year old plants, 50 cents each.**

Mrs. Robert Garret.—A beautiful Rose of exquisite shape, finish and color. The result of a cross between Sombreuil and Madame Caroline Testout. It partakes largely of the latter variety in habit of growth, in foliage, spines and stems, and in shape of flowers shows a complete blending of both parents. The flowers are very large, on strong stems, clothed with clean, heavy foliage and strong spines. The buds are long and pointed in shape, and open up beautifully into a full, rounded flower. In shape of bud and half open flower it very much resembles Souv. President Carnot, but is very much larger; color, a glowing shell pink, very deep in the center; the fragrance is delicate and pleasing; on strong stems clothed with heavy foliage, and as large as American Beauties, but of a beautiful clear pink; almost light enough to be called a shell pink. **Price, 15 cents each; large two year old plants, 40 cents each.**

Madame Jules Grolez.—An exceedingly free blooming variety, with very bright, large, full, finely formed flowers. Color, a distinct and charming shade of satiny China rose. **Price, 15 cents each; two year old plants, 35 cents each.**

White Bougere.—A lovely new Tea Rose. A sport from that famous old variety, Bougere. For open ground planting it has no superior. The flowers are unusually large, deep, full and double; long, stiff stems, and borne throughout the season in great abundance. The color is pure ivory white. Very beautiful, and a particularly good Rose for general planting. **Price, 15 cents each; large two year old plants, 40 cents each.**

Climbing Wooton, New Tea Rose.—When the Wooton Rose was introduced some years ago it created a sensation in this country, and it has ever since been grown by florists as a valuable cut flower. The value of the New Climbing Wooton will, therefore, be still more apparent, inasmuch as it is perfectly hardy out of doors, having withstood a temperature below zero. It makes an early growth, and in one season produces shoots fifteen to twenty feet in length and nearly an inch thick, the branches being literally laden with its well known, large, rosy, crimson, fragrant flowers from every leaf and stem. **Price, 15 cents each; 2 for 25 cents; large two year old plants, 35 cents each.**

Souv. De Jeanne Cabaud, New Tea Rose.—A beautiful "Frenchy" rose of most exquisite color; it is very large and very full, and its chief beauty is in its open state, when its appearance is that of a pink rose set in the heart of a large orange rose. The outer petals are a coppery yellow, the center bright carmine pink. It is a strong grower and free in bloom. Wherever bedding roses do well, this will be a delightful addition. **Price, 15 cents each; two year old plants, 40 cents.**

Antoine Rivoloire.—A handsome new Rose, of vigorous habit of growth, with large, full, Camellia shaped flowers. Color, rosy flesh on a yellow ground, shaded with a border of carmine. Flowers five inches in diameter. A remarkable variety of great worth. **Price, 15 cents each; large two year old plants, 40 cents each.**

Golden Gate, New American Ever Blooming Rose.—This magnificent Rose is probably the largest Tea Rose known. The flowers are extra large, very full and finely formed, and of excellent substance; the buds are long and of the most desirable form; the color is a rich, creamy white, beautifully tinged with fine golden yellow. The petals are large and broad, and exquisitely bordered and tinted with clear rose, making altogether a Rose of the rarest and most indescribable beauty. A strong, healthy grower, and a most profuse and continuous bloomer. Will produce more perfect buds and bloom than almost any variety we know. It is excellent for bedding, also for house culture. NEW HARDY MEMORIAL OR CEMETERY ROSE—Rosa Wichuriana.

This rose is especially desirable for planting in cemeteries, as it is entirely hardy everywhere and is a perfect sheet of bloom. All who want a beautiful Rose to plant on a grave should plant this one. Six plants will completely cover a grave and be in bloom all the time. It does not grow upright, but spreads on the ground like myrtle. It is of a very rapid, prostrate habit of growth, not over 8 inches in height, quickly covering the ground with a mass of very deep, glossy green foliage. In middle of June the flowers appear in bunches in profusion and continue all summer. Flowers are about 2 inches across, single, creamy

white, with showy masses of golden yellow anthers, and intensely fragrant. For use as a cover plant on banks, edges, or masses of rock, this is unsurpassed, quickly producing the effect desired, and this with the showiest of foliage and at a season when flowers are becoming scarce. Used in quantities for landscape work in parks and cemeteries, and no private place exists on the grounds of which it can not be used to advantage. **Price, 10 cents each; 3 for 25 cents; or for \$1.00 we will send 16 plants; large two year old plants, 35 cents each.**

NEW HYBRID MEMORIAL ROSES.

ROSA WICHURIANA. This new race of pretty, hardy, running roses need no protection in Winter and from their trailing habit are very valuable for the private garden and nothing in the Rose line better adapted for the cemetery or public parks, or for covering rocky slopes, embankments, etc.; they are also very fine for planting in border or along paths and roadways. Make grand pot plants for the house or conservatory, and can be used as climbers.

Manda's Triumph—This is a grand hybrid of free growth, with fine foliage and clusters of from 12 to 18 flowers on even a small side shoot, literally covering the plant with its perfectly formed, double, white flowers, nearly two inches across, beautifully imbricated; a valuable sort, either for cut flowers or pot plants. It is also very sweet scented—a valuable variety.

Pink Roamer—The growth is very rampant, and the luxurious foliage partakes more of the Wichuriana. The single flowers, which are produced in close heads, are nearly two inches in diameter; bright, rich pink, with almost a white center, which lightens up the orange red stamens, producing an effect which, combined with fragrance, makes it one of the most valuable Roses in cultivation.

Mrs. Lovett—A double, bright pink form of Rosa Wichuriana. In every respect it is a true Memorial Rose, save the flowers. In habit of growth and foliage, hardness and abundance of bloom, it is identical with its parent, but its roses are double, two and a half inches in diameter, of bright, rosy pink color.

Universal Favorite—A free grower, producing long, branching shoots, with bright, shiny foliage in abundance, and soft, light pink, double flowers, two inches in diameter, strongly perfumed.

South Orange Perfection—This is a gem, with free growth, close to the ground, and multitudes of the most perfectly formed double flowers, about one and a half inches in diameter; soft blush pink at the tips, changing to white.

PRICE, 10 CENTS EACH.

✦ THE NEW JAPANESE RAMBLER ROSES. ✦

All hardy and the most charming of Climbing Roses. No Rose of any class or kind will compare with Crimson Rambler for beauty in any respect. It is a Gem.

SPECIAL OFFER—The 7 Rambler Roses, including "Helene" and "Psyche," all different colors, in strong one year old plants for 60 cts.; in large two year old plants, the set of 7 for only \$2.00.

Crimson Rambler—After five years' trial this variety has made a record which places it at the head of the list of Hardy Climbing Roses. It is a vigorous grower, making shoots eight to ten feet in height in a single season, and when in bloom commands admiration by the gorgeous display of its brilliant crimson clusters of blossoms, each cluster a bouquet in itself. Within the past two years we heard of several cases where upwards of 8,000 blossoms have been produced by a single plant. This marvelous prodigality of bloom is not unusual with it, as it succeeds everywhere. As a pot plant it is unequalled for decorative purposes, thousands of pots of it in bloom being sold in Philadelphia last Easter. The blooms remain on the plant for a great length of time without losing their brightness. The foliage is also retained to a great extent during the Winter, making the plant almost evergreen. It is perfectly hardy in all parts of the country. **Price, 10 cents each; 3 for 25 cents; large two year old plants, 35 cents each.**

New Pink Rambler, Euphrosyne—This Rose is as charming as any of its rivals, and embraces all their good qualities, and of a pretty bright pink color, medium sized flowers, borne in large clusters. **Price, 10 cents each; large two year old plants, 50 cents each.**

New Golden Yellow Rambler, Alistar Stella Gray—New. Belonging to the Rambler section of Roses. We know it to be a grand Rose, and have tested its hardiness. You will make no mistake in buying it, as you will have a grand, free-blooming climbing yellow Rose. Is a continuous bloomer, laden with bunches of buds of orange yellow. **10 cents; 3 for 25 cents; large two year old plants, 35 cents.**

A SPRAY OF RAMBLER ROSES.

Price, 15 cents each; large two year old plants, 50 cents each.

New White Rambler, Thalia—This charming new Rose of the Rambler variety is a wonder. Climbs rapidly, is entirely hardy, produces immense clusters of pure white Roses, perfectly double, of delightful fragrance, and of immaculate white. **Price, 10c each; large two year old plants, 50c each.**

The New English Rambler, "Psyche"—This new Rose has all the characteristics of **Crimson Rambler**, but a stronger grower, with beautiful foliage, its flowers are larger but not so many in a cluster as in that variety. The color is what Rosarians of the world have been trying to produce for the last five years, and that is a lovely **rose pink**. **It is bound to be a more notable variety than its parent**, and that is making a strong assertion, for probably no Rose of that class ever attained such popularity as **Crimson Rambler**. **The price is 15 cents each for one year old plants, and 50 cents each for two year size.**

Yellow Rambler, Aglaia—This new Hybrid Noisette produces its flowers in the same manner as the popular **Crimson Rambler**—that is, in large pyramidal-shaped trusses, frequently being from 50 to 100 flowers in a truss. In color it is a decided yellow, with moderate-sized cup-shaped nearly full flowers, which are sweetly scented. Its habit of growth is very strong, frequently making shoots of 8 to 10 feet in one season. **Price, 10 cents each; 3 for 25 cents; large two year old plants, 35 cents each.**

New Rambler Rose, Helene—A distinct new color, a very pretty light rosy red, foliage and growth like its parent, the **Crimson Rambler**. **Price, 15 cents each; large two year old plants, 50 cents each.**

Coquette des Blancches—One of the finest white Hybrid Perpetuals. Flowers large; pure snow white; very double, full and fragrant. A constant bloomer.

Countess of Roseberry—We have in this charming variety probably the most beautiful Rose grown. No other Hybrid can approach it in its exquisite coloring. Indeed, no one would take it for a Hybrid, as it is as delicate and beautiful in its tints as the most gorgeous of the Teas. Color, satin-pink in the center, and deepens in the outer petals to a bright rose. The feathery shading gives it the appearance of two distinct colors. Very free flowering, a strong grower.

Empress of India—One of the best garden Roses ever introduced. The flowers are large, full and fragrant, and of the most intense dark crimson; in fact, at a little distance they look almost black. Very rare and handsome.

Glorie de Margottin—This fine, new hardy Rose is distinguished alike for its vigorous, healthy constitution, freedom of bloom, and is decidedly the most brilliant **hardy** red Rose as yet introduced. So intense is the color that it might also be termed a scarlet. Flowers of the largest size and most exquisite fragrance.

John Hopper—Flowers are very large, very regular and full. Color, a brilliant rose, changing to a bright, glowing pink, shaded with rich scarlet. Very sweet and a profuse bloomer.

In it are combined the qualities that make a perfect Rose: vigorous growth, perfectly formed flowers, great freedom of bloom, and crowning all a wealth of color unapproached by that of any other Rose. Clear, brilliant red, shading to crimson and maroon at base of petals. You will not be disappointed in this beautiful Rose.

King of Sweden—This is by far the richest Rose yet introduced. It is so intense in color that the exclamation on seeing it is, "Oh, that lovely black Rose!" It is very velvety in texture. A most superb Rose, and one that will always be found in the standard list of Roses.

Marshal P. Wilder—This fine new Rose originated in this country, and is of unusual excellence. Flowers are large, semi-globular, full and of good substance. Color, a bright, scarlet crimson, richly shaded.

Marchioness of Lorne, New—This beautiful Rose produces flowers of an exceedingly rich, fulgent rose color, slightly shaded in the center with vivid carmine; they are large, very sweet, full and finely cupped shape; petals large, and buds long and handsome. It is especially remarkable for its truly perpetual habit, every shoot being crowned with a flower bud.

THE VIOLET SCENTED LADY BANKS, OR BANKSIA.

These are fine Climbing or Trailing Roses, for the South or where the Winters are not too severe. They require two years' growth to bloom to perfection, and are then very beautiful. Flowers are produced on the old growth; pruned very little, cutting away only what is absolutely necessary. The flowers resemble a double cherry blossom; produced in large clusters and have a decided violet perfume.

White Banksia—A pure, untinted white. **15 cents each.**

Yellow Banksia—Rich golden yellow. **15 cents.**

New Large Flowered Ever-Blooming Cannas.

The improvements made in the Canna during the past few years, in size of flower and diversity of color, places it away in advance of all other plants for bedding purposes, even surpassing the Geranium in its gorgeous display of brilliant colors. In the list following will be found the best of the newer introductions and the cream of the standard varieties. Where brighter and most imposing effects are desired in bedding, the Canna is unequalled. A fine bed may be enjoyed by every one who has a few feet of ground.

"Cream Collection" of 12 Most Valuable Dwarf Cannas.

Price, 10 Cents Each, Except Where Noted.

Alphonse Bouvier—This grand and luxuriant variety grows five to eight feet. Tips of shoots surmounted by immense clusters of brilliant crimson flowers of largest size. For bedding or as specimen plant it is unequalled.

Burbank, New Giant Flowered American Canna—Grows about 5 feet tall, and bright green foliage. The flowers are truly gigantic in size, the upper petals spreading out fully seven inches, and the form is really of a semi-double nature. Toward the inner part of flowers the petals show fine crimson spots; all the rest of the flower is a beautiful, rich canary yellow. It even surpasses the Italian varieties.

Charles Henderson—Flowers of largest size. Color, a wonderful rich crimson, center penciled with gold. Owing to dwarf habit, this makes a perfect pot plant; invaluable for outdoor bedding.

Egandale—Best of all dark leaved Cannas for bedding. Flowers borne in compact heads, and in great profusion; unequalled by any other sort. Color, a deep currant red, of a pleasing shade; different from any other.

Flamingo—The color is a solid crimson, without spot or blemish; whether grown indoors or out, it is constantly surmounted by a crowning glory of perfect blooms, whose sparkling brilliancy is as bright as the plumage of the Flamingo bird. In this variety, however, the larger the mass the finer the effect, and when planted in conjunction with yellows and high colored reds it is simply superb. Green foliage. Height, four feet. **Price, 15 cents each.**

mense heads at the end of every shoot. Petals wide, broadly rounded; color, deepest vermillion, bordered with gold.

Paul Marquant—Flowers large, enormous spikes. The color might be called a bright salmon with carmine tint, with a silvery lustre which glistens and glows in different lights. To some it appears the fashionable apricot shade now so popular.

Queen Charlotte—The finest of the gilt edge type, with heavy bluish green foliage; enormous flower spikes bearing a beautiful bouquet of large flowers of perfect form; a velvety blood red, broadly banded with a bright canary yellow.

Secrétaire Chabanne—A beautiful orange, with deeper shadings. In this variety the color is so rich and pleasing as to be entirely distinct, and, while it is valuable for planting as a separate specimen or in masses by itself, its greatest value consists in massing it in conjunction with other high-colored sorts, with which it not only harmonizes, but appears to intensify their color. Height about 4 feet. Green foliage.

Sunbeam—Owing to its immense size, splendid finish and great substance of its flowers, it is bound to become the most popular Canna ever introduced. The flowers are a brilliant golden yellow color, dotted with bright orange scarlet spots. Handsome and very bright green foliage. **Price, 15 cents each.**

America, New Red Leaved—First red leaved Canna in giant flowered class. Height, four to five feet. Foliage fine glossy bronze, almost as if varnished. Flowers extra large, deep orange flamed and striped with deeper shade. Entirely distinct from any other Canna, both in foliage and in flower. **Price, 15 cents each.**

The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. Fern Ball Growing

"Mikado" Fern Ball.

The Wonderful Japanese Fern Ball, Davallia Bullata Nagaha—This Novelty imported from Japan, we take great pleasure in introducing as one of the best and most satisfactory house Ferns ever offered.

This ball consists of Fern Roots about the size of a pencil, woven outside and around a ball of moss. These roots produce beautiful sprays of Ferns from eyes or buds at nearly every inch of their length. Thus the whole surface of the ball soon becomes covered with Fern Sprays. They may be suspended in any part of the room or grown on a stand or table.

Directions for starting.—Place ball in water for 15 minutes and then suspend in any desired position; repeat every two days until growth is started, after which sprinkle occasionally as required. To use in Fern dish, cut ball in halves, placing flat side down, thus getting two dishes of beautiful Ferns. The Fern ball may be allowed to dry up at any time and set away, and started again by watering as before.

Price for dormant large size, 60 cents each, postpaid, or 50 cents by express. Small size, 50 cents each, postpaid; by express 40 cents each; 5 for \$2.00.

OUR THOROUGHbred SET OF NEW GIANT FLOWERING
CHRYSANTHEMUMS

The Flowers of the following varieties are enormous and are the sensations of the exhibitions. Every one is a blue-blooded, pedigreed variety, all from carefully selected crosses, and not from chance seedlings.

NEW OSTRICH PLUME F. J. TAGGART.

PRICE, 10 CENTS EACH, EXCEPT WHERE NOTED.

F. J. TAGGART.—The most striking novelty of recent years. The best of all the hairy or plumed section. A great advance over all the yellows of this class, being perfectly double and the hair-like filaments more pronounced. No other variety at Kansas City or Chicago attracted so much attention and brought out such exclamations of surprise and wonder. Color, light yellow. Flowers eight inches in diameter. An exhibition variety of exceptional merits. Winner of \$150 prize at Kansas City; also, bronze medal at Chicago. **Price, 25 cents each.**

INTENSITY.—This beautiful velvety, crimson Chrysanthemum is totally unlike any other. Absolutely distinct; a grand, deep solid color, showing no reverse, as many of the reds do. The flowers are beautifully made, large and full, broad petaled. Forms a striking contrast with the other "Mums" and, as it is the best of its color, it must prove one of the most valuable and indispensable of recent introduction. Like the other kinds in this set it should be in every collection. It is easy to grow, blooming early in the season; producing grand flowers on stiff stems that are elegantly clothed with foliage in the greatest profusion.

COL. APPLETON, King of the Yellows.—With flowers of immense size, almost as large as Timothy Eaton, with depth as great as the breadth, large, heavy, reflexing petals and grand substance, perfect form and magnificent color—bright yellow, we have the greatest of all yellow Chrysanthemums. Another point in its favor is the faultless foliage and stem. The stem is strong, carrying the flower erect, while the foliage is of the best texture, not too large, and growing fully up to the flower. Blooms at mid-season, and in the open ground is especially fine. We know of no variety to compare with it, and it is indeed the champion of champions, and the greatest of all yellows.

LAVENDER QUEEN.—One of the most beautiful and delicate of the lavender pinks. Very refined in form, foliage and habit. It is beautifully reflexed in form, showing the color perfectly, and of extraordinary large size. A very popular and much sought after variety in the flower stores. We recommend it as thoroughly reliable to every grower.

TIMOTHY EATON.—This grand new white came to our fall shows and captured every prize and cup for which it was entered. It is the largest, globular, Japanese incurved variety yet raised; the form is perfect, the stem stiff, a healthy grower and brings a full crop of perfect flowers. Crown buds must not be taken earlier than August 15th; terminals also bring magnificent blooms.

THE YELLOW EATON (Dr. Oronhyatekha).—A bright yellow sport from Timothy Eaton, only a shade lighter than Col. Appleton, and

especially valuable as the best in its color to follow that variety up to the close of the chrysanthemum season; foliage very beautiful, stems first rate, and quite strong enough to hold up the monster blooms which do not show the coarseness sometimes attributed to Eaton; for everybody's use, and for commercial purposes, as well as for show, we can cheerfully recommend this grand variety. **Price, 20 cents each.**

Mlle. Marie Liger.—This new French variety, that won the prize offered by the Chrysanthemum Society of America at the recent Paris Exposition for finest seedling, is one of the grandest productions of recent years. It has all the requisites to make it indispensable to the amateur or the professional grower. It has the size, which is enormous, and depth of magnificent globular, incurved form, measuring, with good cultivation, 18 inches circumference. In habit it is quite dwarf. The best flowers are grown from the second crown bud, taken about September 1st. Especially recommended for pot culture. The color is sublime, a pearl pink deepening to a very bright shade at the base of the petals. **Price, 15 cents each.**

CALVAT OF '99.—An enormous Japanese flower, very full; soft mauve or lavender shading over white; very large with broad channeled petals slightly incurving; stiff stem with ample and beautiful foliage. Received four first class certificates of merit abroad the year of its introduction.

VILLE DE BORDEAUX.—A grand variety with an enormous flower, fine stem with beautiful foliage. A broad petaled Japanese sort that makes an extremely showy flower of bluish pink. Extra fine and one of our best exhibition sorts, and fine for general cutting. **Price, 15 cents.**

NOUVELLE VIE.—This grand variety is an exhibition bronze of the very largest size. If you are looking for something fine to add to your general collection do not miss this fine sort; very easy to grow, with a remarkably fine bloom as the result. **Price, 15 cents.**

MRS. ELMER D. SMITH.—This variety will prove a rival of the famous Major Bonnafon, being brighter in color, more dwarf, but with much heavier and stronger stem. It is a beautiful bright yellow, of the Japanese incurved type, very full and double, with high rounded center.

ESTELLE.—This is one of the prettiest of all the early varieties; being a sport from Glory of the Pacific, it has all the parent's good qualities, together with a perfect color, pure paper white. Very easy to do; fine for pots. The very finest, largest and best, from the commercial standpoint, of all the early whites. **Price, 15 cents.**

SPECIAL OFFER.—For \$1.00 we will send this set of Twelve Great Thoroughbred "Mums." No other discount.
